**This game time may change due to a scheduling conflict.

Notes on player development and field size:

1. Younger players play on the boarded fields so that the ball is always in motion, the focus is on using the feet, and there is more playing time with little stoppage of play.
2. Players progress to playing half-field games with fewer players to encourage more touches on the ball than a full-field game. Side and end lines introduce throw-ins, goalies, field position and encourage more ball control.
3. Players progress to 3/4 field games to lengthen the field, develop long passes, crosses, & shooting on full-sized goals.
4. Older players play full-field games to develop ball movement, offense / midfield / defense, and other team concepts.
